

# Compostable Film

# Natur-Tec®

Sustainable Biobased Materials

Natur-Tec® biodegradable sheeting is compostable and an environmentally responsible alternative to conventional plastics. Substitute Natur-tec® film packaging for anything currently made out of polyethelene packaging. It can be made into tubing, sheeting, bags and more. It is tear resistant, waterproof, flexible and fusible. The film can also be customizable with zipper closures and printing.

## Features:

- 100% Certified Biodegradable & Compostable
- Environmentally-friendly alternative to conventional plastics
- Does NOT contain any polyethylene or other conventional plastics
- Meets ASTM D6400 standard specifications for compostable plastics
- Certified by the Biodegradable Products Institute to fully biodegrade in a composting environment
- Meets requirements of California AB1972
