

Compostable Bags

Natur-Bag® offers a full-line of completely compostable bags that are sturdy and easy-to-use. They reduce the use of conventional plastics since they do not contain polyethylene. The bags are perfect for home composters looking to reduce their waste sent to landfills and those who utilize community compost programs. Printed on each bag is the 100% compostable logo that only products certified by the Biodegradable Products Institute can carry. This logo allows the bags to be easily accepted at composting facilities and in yard waste disposal programs.

Features:

- 100% Certified Compostable*
- Do NOT Contain any Polyethylene or Other Conventional Plastics
- Meets ASTM D6400 Standard Specification for Compostable Plastics
- Certified by the BPI to Fully Biodegrade in a Composting Environment
- Meets Requirements of California AB1972
- Green Cart Compatible
- Pre-approved for Use by Recology (Norcal) Waste Systems, Cedar Grove Composting, American Organics Recycling, Eureka, and More

* Natur-Tec® bags are intended to be composted in a professionally managed municipal or commercial facility operated in accordance with best composting management practices.

Look for the Biodegradable Products Institute certification logo on products to ensure they are truly biodegradable and compostable
